SS-291 Floor Standing Hot and Cold Water Dispenser

Product characteristics:

- Classic and Durable Design, with a curved front panel design.
- Hot Water (95-100°C) is supplied via thermostat, and comes with an additional safety feature (Temperature limiter) to prevent overboiling
- Cold Water (5-8°C)
- Highly efficient and quiet compressor (charged with R-134A refrigerant), which saves electricity and complies with environmental standards
- Top Basin and Side Panels are made of SS304 Stainless steel – Extremely resistant to a wide range of atmospheric environments and many corrosive media.
- The bubbler offers an easy access to drinking water for end-users without the user of cups, and the height of water is adjustable.
- Glass filler offers an easy and convenient way to fill up bottles and cups.
- In case of uneven floor, the base of dispenser has 4 adjustable studs to ensure dispenser remains stable.
- Filters (Built-in) are available upon request.
